ABOUT ME

Highly motivated individual who can work under pressure and possesses an excellent communication skill who seeks for employment where I can utilize my skills and experience.

EDUCATION

Carlos F.GonzalesHigh School -Maguinao, San Rafael, Bulacan | 2014 - 2020

Information, Communication and Technology (ICT)

Senior High School graduate in Information and Communications Technology (ICT), trained in basic computer operations, troubleshooting, and the use of common software applications. Developed early exposure to IT concepts and digital workflows.

Bulacan State University - Guinhawa, Malolos, Bulacan | 2020 - 2024

Bachelor of Science in Information Technology (BSIT)

Bachelor of Science in Information Technology (BSIT) from Bulacan State University, major in Business Analytics. Trained in data analysis, visualization, and transforming raw data into meaningful insights for business use. Familiar with basic statistical analysis, business reporting, and problem-solving using IT-based solutions.

WORK EXPERIENCE

Freelancing

June 2021 – June 2022

Computer Technician & Graphic Layout Designer

Performed basic computer troubleshooting and hardware maintenance. Installed and configured desktop computers, software, and peripherals. Troubleshoot and repaired printers, including installation and configuration. Designed custom basketball jerseys and promotional materials. Provided printing, scanning, and document processing services.

Reference: John Robert Moya | 0999-480-4572

TeleworkPH | October 2022 – March 2023

Data Analyst

Worked as a Data Analyst at TeleworkPH under Remotask, assigned to e-commerce projects involving data review, classification, and analysis. Assisted in maintaining data quality, interpreting datasets, and supporting business insights through structured data handling.

Simplus Infosys | February 2024 – May 2024

OJT (On the Job Training)

Completed On-the-Job Training at Simplus Infosys, where I gained hands-on experience with various programming tools and platforms. Utilized Apex for backend development, implemented system processes using Salesforce Flow, and worked within the Salesforce CRM platform to support business operations and solutions.

Chowking | November 2024 – October 2025

Service Staff

Provided excellent customer service by taking orders, assisting customers, and ensuring a positive dining experience. Maintained cleanliness and organization of the dining area, prepared food and beverages according to company standards, handled cash transactions accurately, and worked collaboratively with team members to achieve daily operational goals in a fast-paced environment.
